Email	Notes
rhorton@usgs.gov	Tribal Liaison for the USGS Southwest Region (SWR). The SWR includes seven states, Colorado, Utah, Arizona, New Mexico, Oklahoma, Kansas and Texas. We have about 95 Federally recognized tribes in our region. Our Regional Director, Max Ethridge, asked me to attend this meeting to represent the USGS. I can make a short presentation on the USGS mission and our current SWR tribal engagement strategy if needed. Please note that most of the issues of interest listed in your email are beyond the scope of the USGS mission. However we do have mission areas that focus on water and natural hazards.
charles_haman@doioig.gov	I am (among other duties) the Outreach Program Coordinator here at Interior's Office of Inspector General. I'd be very interested in giving a version of our Outreach presentation at this meeting, if time permits. From Interior perspective, we have some interest in "all things Indian Country" even when stemming from other agencies; and as OIG, we like to get an anti-fraud measures out ahead of any wrongdoing... by raising "fraud awareness" with various audiences that contact federal programs. Our Indian Country work has been particularly active in MT, due to cooperation with the Justice Department (U.S. Attorney) there.
darin.allan@dot.gov	FTA Region 8 is definitely interested in participating. We could share information on our Tribal Transit Program including formula and discretionary funding opportunities, and we'd welcome the opportunity to meet with tribal leaders/staff and partner federal agencies as may be possible.
tedd.buelow@wdc.usda.gov	On behalf of USDA Rural Development I'd like to thank you for offering this opportunity and commit to being present and contributing. Sallie Clark, the State Director for USDA Rural Development in Colorado is also available that day. Taking into consideration what you've already mentioned below, please provide us with additional information as it is known, so that we can plan accordingly.
nancy.dragani@fema.dhs.gov ; stacie.greff@fema.dhs.gov	I floated this by my tribal leads here at FEMA and they were totally on board. One indicated that we had participated in a similar session about 4 years ago and it was tremendously valuable. I've copied Stacie Greff on this email for future actions; she is our External Affairs director and tribal falls into her portfolio. Please let Stacie and me know how we can support and engage with you on this effort.

sjohnson08@fs.fed.us	Appreciate the opportunity to engage with Tribal Leadership on programs and issues impacting Tribes across EPA Region 8 (MT, ND, SD, UT, WY, and CO) and Forest Service Region 2 (CO, WY, SD, NE and KS). Currently, we have an important national effort to advise on, as well as regional opportunities to share. We thank you in advance for allowing us to interact, and we look forward to receiving additional logistics information. We can provide a speaker biography if you wish. As I write, the corner office is reconciling Regional Leadership team member's schedules with the intent to have the Regional Forester (Brian Ferebee) or a Deputy Regional Forester (Jacqueline Buchanan) make the FS presentation at the EPA Tribal Leaders Forum.
william.haines@va.gov	I'm the Native American Direct Loan Coordinator for the VA Denver Regional Loan Office. I handle CO, WY, MT, ID, UT, OR, WA and AK. I'm available to present on the VA NADL program. Please provide an itinerary when available. Since 1992, the Native American Veteran Direct Loan (NADL) program has provided eligible Native American Veterans and their spouses the opportunity to use their Department of Veterans Affairs (VA) home loan guaranty benefit on Federal trust land. VA provides direct home loans to eligible Native American Veterans to finance the purchase, construction, or improvement of homes on Federal Trust Land, or to refinance a prior NADL to reduce the interest rate.
smehlhoff@blm.gov	Sue Mehlhoff, our Deputy State Director for Energy, Lands and Minerals, will be sitting in on my behalf (Greg Shoop)
gshoop@blm.gov	I don't think that the public health and environment issues you described are in the BLM wheelhouse, particularly, but I'd welcome the opportunity to engage Tribal Leadership.
dmtrujillo@fs.fed.us	I am the Acting National Director for the Forest Service Civilian Conservation Job Corps program. We operate 26 Job Corps centers across the U.S. Our National Office is located in Golden, CO. We are interested in participating.
wanda.colon-Mollfulleda@ssa.gov	Leads CFEB Tribal Outreach Communications Subgroup
ronald.lester@us.af.mil	I would be happy to participate and offer some brief information on the Air Forces environmental programs and ongoing initiatives in Tribal relations/consultations.
Donald.A.Cooper@hq.dhs.gov	I look forward to meeting Tribal Leaders and introducing some of my key personnel. At this time we have no major programs to brief.

nezette.rydell@noaa.gov	The National Weather Service would like to be a part of this meeting. Greg Hanson, our Warning Coordination Meteorologist, and I will attend for the National Weather Service. Please let us know if there are any specific topics of interest for this group.
laurie.konsella@hhs.gov	I am hoping to attend the meeting but I do have a mandatory 11 am HQ call. Will the meeting be in EPA space or at the federal center? I am hoping some other HHS staff will attend too – did you receive other HHS rsvps so that I can coordinate? Also, I would like to talk with you sometime about EPA and the opioid and drug take back work we are doing. Perhaps we can set up a short call sometime? We have an active group and miss the EPA participation.
shawn.graff@hq.dhs.gov	I would be very interested in participating in this meeting.
sara.elton@va.gov	The National Cemetery Administration is available to provide information if there is room on the schedule. However, we do not meet the specific needs of this meeting as listed below. If invited, we would provide information on Veteran benefits for burial and specifically burial for Veterans in the states listed below, including the new VA national cemetery being constructed in Colorado Springs and the upcoming cemeteries in Cedar City and Cheyenne. Please let me know if the opportunity to speak to the tribal leaders still remains and provide details for location and briefing time. We would not attend the entire day, only arrive and present and then step away from the conference following our presentation to make room for others.
Ian.Shipps@hhs.gov	attend on behalf of Andrea Oliver
andrea.oliver@hhs.gov	Thank you for the invitation to participate in this meeting. I, or my designee, will represent Office for Civil Rights (OCR) at the meeting. We appreciate this opportunity and look forward to working with you.
Amartinez@eda.gov	I'm the regional director for the U.S. Economic Development Administration. I'd be interested in participating in this meeting. Please let me know any additional details and how many people are okay to attend from our agency.
patricia.mcmahon@eeoc.gov	I do not believe anything beyond a basic introduction of EEOC would be necessary since EEOC's financial involvement with tribes is limited to an internal EEOC contract between EEOC and very specific Tribal Employment Rights Office's (TERO).
david.l.chase.mil@mail.mil	The Defense Coordinating Element will not be able to attend as we will be at an Army North Conf. in St. Louis. Coordinantes defense support to FEMA Region 8
Paul.Bergman@trade.gov	I would be interested in attending.

yvette.smith@onrr.gov	Process royalties for limited number of Tribes.
	I would be interested in attending for USDA, Animal and Plant Health Inspection Service, Plant Protection and Quarantine (USDA, APHIS, PPQ). I have reached out to other APHIS group to gage their interest...
	Nothing for Tribal Leaders - Interest in connecting with Federal Executives
